## See the "Big Cut" Machine in Action

The ["Big Cut" machine](#) is one of several equipment investments that M&D Mechanical use to increase efficiency. This machine uses an air plasma system to cut pipe, making the process quicker and more precise. Learn more about our [facility and equipment](#).

M&D Invests in Employees with Training Programs

Several M&D Mechanical supervisors participated in a training session presented by FMI (Fails Management Institute). This session focused on managing productivity, the results of proper management of time, and planning your work prior to implementation to increase productivity.

In addition to supervisory training, 28 M&D Mechanical employees are currently participating in a leadership training program developed by Calhoun Community College. The program includes both online and in-person classes and was created by the college to meet the specific needs of M&D Mechanical.

Both of these training courses are part of M&D Mechanical's ongoing employee training program. See [Our People in Action](#) for more employee news.

## M&D Mechanical Employees Attend MLK Celebration

Several M&D Mechanical Contractors employees attended the 21st Annual MLK Unity Breakfast held in Decatur. The event was hosted by the Decatur-Morgan County Minority Development Association. See [Our People in Action](#).

## Congratulations to Michelle Cesareo

M&D Mechanical Accounting Coordinator Michelle Cesareo recently completed her Master's in Business from the University of North Alabama. We would like to give her a big congratulations for all of the hardwork that she's put into this achievement. Michelle is one of the staff members currently showcased on our [Meet Our People](#) page on our website.

## LATEST PROJECT

### NASA Building 4473
